Own Precious

After a very good night I have been resting in bed & I'd have slept a lot more, but for the flies. They are a tremendous nuisance & some sticky papers wh. have been brought up do not seem to be attractive to them. However I intend getting up & going down for lunch & may perhaps get an easier siesta in the garden.

The night was deliciously cool & I hope we shall soon settle down comfortably. Service is good & attentive & everything is beautifully clean. Rooms are good, the drawback is the cork-screw staircase.

Inlla's note will have told you of our safe arrival. It was a lasso drive in the Sudovini motor with good Leone, & Bruno

A meet as to see & the luggage wh. came
by our train & was quickly retrieved.
I have not begun to unpack boxes & am
having a Sunday rest.

I had a disappointment in the hold-all.
Instead of my good surplice I have brought
the old ragged & useless one, & must come
to you to make up for the mistake. I am
very sorry, but hope it won't give you
much trouble. The one I want is just on the
top of everything in the basket on the flat
lid. Please send it by Parcel post.

I think I left my dear little (heart) safety-
pin brooch on the dressing table. If so, please
enclose it. Sorry my darling to give you
trouble even when I'm not there, but I
know you will wish me to do it.

I trust the rest is beginning to do you good
& that all goes well with the establishm^t.

You will love the swallows here - they are flying
all around my windows. The garden is full
of birds. Ella is v. good & sends greetings.

Heartfuls of love of the best girl & her loving mother
