

Dearest Maggie.

We have been to Church twice to day. We are perhaps going to have some fireworks next Friday. The lecture yesterday was very nice the person who lectured is going to plate a lot of coins with silver and give one to each of us, yesterday he plated some halfpennies with silver, they looked just like shillings. Father came to see me yesterday, I am making a box at carpentering. It is rather cold here to day. No more to say I remain yours.

Loring John
