Dear *Dinah,*

We were shown a copy of the enclosed talk which is such a lovely tribute to Roger.

Most of us know Roger on the home front - carpenter, upholsterer, decorator, kitchen maid! - there being nothing so small or insignificant that he could not take it in his stride with natural ease.

This insight into the "professional" Roger is a portrait of his unique, spontaneous, 'down to earth' ability and talent as *The Lawyer*.

Finding the talk so absorbing and enjoyable we felt sure that his closest friends and loved ones would be happy to have a copy.

With love

Noëlle & John
