

## EXPOSED A GREAT FRAUD.

Dr Christian David Ginsburg, Hebrew scholar, friend of Gladstone, and one of the men who revised the Old Testament, has died at Palmers Green. He was born at Warsaw in 1831, and in his lifetime had written an immense number of books on the Bible and the Jewish Scriptures. He exposed the frauds of the Jew Shapira, who offered the British Museum in 1883 some "speeches of Moses" reported on strips of leather. When the forgery was detected Shapira committed suicide.
